**THE SHENANDOAH VALLEY
IS INVITING
IN THE SPRINGTIME**

The Polled Shorthorn Breeders especially invite you to our sale at Winchester, Virginia, Saturday, May 18.

All Polled Shorthorn enthusiasts are familiar with the fact that for the past several years many of the top cattle from the leading herds and sales have gone to Maryland and Virginia herds.

These same Maryland and Virginia herds have produced some of the top selling Polled Shorthorns. To mention just a few outstanding examples: Royal Choice Sultanx, the 1925 International Grand Champion, was bred in Clarke County, Virginia, just a few miles from where the \$4700.00 Oakwood Commanderx was born. Oakwood Commander was sold first through this sale in 1944 and what a bargain he was. The sire of the heifer that topped the 1944 Teegardin sale at \$2100.00 was bred by a regular consignor to this sale. Bonnie Butterfly 2d x a first prize winner and second top selling heifer at the recent Polled Congress was sold through this sale as a calf in dam. Several bulls have gone from this sale to head some of the strongest herds in America.

This is a sale where

QUALITY POLLED SHORTHORNS ARE SOLD

May we welcome you in Winchester May 18?

FASTEST GROWING BREED

In five years no other breed of beef cattle can supersede the record made by Polled Shorthorns. Here is the evidence:

Transfers of Polled Shorthorns were 95 per cent higher in 1944 than in 1940; registrations increased 59 per cent in the same five-year bracket; new memberships went up 108 per cent in the same period.

Furthermore, the average price of Polled Shorthorns sold at public auction in 1944 increased 14 per cent over the average price in 1943. To date no other beef breed has presented figures which can show such rapid advancement.

If you are not already a Polled Shorthorn breeder, get started with this progressive, profitable breed.

You too will find . . .

POLLED SHORTHORNS

MORE PROFITABLE, Because

. . . they are the most progressive breed of cattle on earth . . .

. . . naturally hornless cattle answer the question of how best to avoid the shrink, the cost and the horror of annual dehorning jobs . . .

. . . feedlots and pastures are safer for children, helpers and owners of farms where Polled Shorthorns are bred . . .

. . . they are the most efficient producers of beef and milk of all breeds of cattle . . .

. . . they are readily adaptable to any climate . . .

. . . they are gentle, thrifty and raise their calves to greater weights at any given age . . .

. . . the demand for Polled Shorthorn breeding stock is increasing annually, which means a steady market at substantial prices.

—and if you are seeking Polled Shorthorns of the most approved type and breeding at prices you can afford to pay, do not fail to attend this auction sale.
